

ProteoSep[®]

Part No's – Description & Contents – 2010 List Prices

Standard pH Range & Extended pH Range (ER) P/Ns

A55456 – ProteoSep[®] Standard pH Range Chemistry Kit – \$2495.00

Sufficient Reagents for 10 ProteoSep[®] Profiles

1 @ ProteoSep[®] Buffer Kit – Part No.: A51678

1 @ ProteoSep[®] Column Kit – Part No.: A51680

A51678 – ProteoSep[®] Standard pH range Buffer Kit – \$595.00

Sufficient Reagents for 10 ProteoSep[®] Profiles

2 @ 500 cc Bottles of Start Buffer pH = 8.5 – Part No.: A51670

2 @ 150 cc Bottles of Eluent Buffer pH = 4.0 – Part No.: A51675

10 @ PD-10 columns

A51670 – ProteoSep[®] Standard pH range Start Buffer – \$125.00

1 @ 500 cc Bottle of Start Buffer pH = 8.5

A51675 – ProteoSep[®] Standard pH range Eluent Buffer Bottle – \$170.00

1 @ 150 cc Bottle of Eluent Buffer pH = 4.0

A59456 – ProteoSep[®] Chemistry Kit – ER – \$2495.00

Sufficient Reagents for 10 ProteoSep[®] Profiles

1 @ ProteoSep[®] Buffer Kit – Part No.: A59678

1 @ ProteoSep[®] Column Kit – Part No.: A51680

A59678 – ProteoSep[®] Buffer Kit – ER – \$625.00

Sufficient Reagents for 10 ProteoSep[®] Profiles

2 @ 500 cc Bottles of Start Buffer pH = 9.5 – Part No.: A59670

2 @ 150 cc Bottles of Eluent Buffer pH = 4.0 – Part No.: A59675

10 @ PD-10 columns

A59670 – ProteoSep[®] Start Buffer ER – \$180.00

1 @ 500 cc Bottle of Start Buffer pH = 9.5

A59675 – ProteoSep[®] Eluent Buffer ER – \$150.00

1 @ 150 cc Bottle of Eluent Buffer pH = 4.0

ProteoSep Columns and Software P/Ns

A51680 – ProteoSep[®] Column Kit – \$1900.00

2 @ ProteoSep[®] HPCF Column – **Part No.: A51685**

1 @ ProteoSep[®] HPRP Column – **Part No.: A51689**

A51685 – ProteoSep[®] HPCF Column – \$650.00

1 @ high performance Chromatofocussing (HPCF) Column

A59685 – ProteoSep[®] HPCF 5007 WP Column – \$650.00

1 @ high performance Chromatofocusing Wide Pore (HPCF) Column

A51689 – ProteoSep[®] HPRP Column – \$850.00

1 @ high performance Reverse Phase (HPRP) Column

A51700 – ProteoVue[®] Imaging Software Suite – \$2700.00

1 CD Containing ProteoVue, DeltaVue and MultiVue Program Modules

A51700UP – Upgrade to ProteoVue[®] Imaging Software Suite – \$750.00

1 Install CD to upgrade the original ProteoVue and DeltaVue programs to the ProteoVue[®] Imaging Software Suite

Sample Preparation Buffers – See Tech Note #3

A43010 – ProteoSep[®] Standard Detergent Lysing Buffer – \$290.00

25 x 2.5 cc vials – Frozen at -20°C

A43110 – ProteoSep[®] Membrane Protein Solubilization Buffer – \$550.00

25 x 2.5 cc Vials – Frozen at -20°C

A43210 – ProteoSep[®] Non Detergent Lysing Buffer – \$175.00

25 x 2.5 cc vials – Frozen at -20°C
